

Glasgow Wildlife Garden Festival

July 2015

Celebrating Glasgow's green spaces

Welcome

Welcome to the Glasgow Wildlife Garden Festival!

RSPB Scotland has teamed up with Glasgow Year of Green 2015 to showcase Glasgow's amazing green spaces and wildlife. This July, as part of 'Biodiversity Month', a packed diary of events will introduce you to some of the incredible creatures that share our streets and parks, and some of the people doing incredible things to help them.

Choose from canoe trips, art workshops, wildlife walks, talks, a city-wide bioblitz and much more. There's something for everyone, so why not visit an event or a garden near you and learn more about the wildlife on your doorstep.

We have such a full schedule of events that we don't have space for lots of details here, so check out our website www.glasgowgardenfestival.org for more information. Accompanied children are welcome at all events.
