

# Ham Wall

## Finding your way around

### Ham Wall loop

A 2 mile/ 3230m circular walk (1 hour).

A scenic loop following the hardstanding old railway path and then grass trail after crossing the canal. See bittern, great white egrets, marsh harriers and maybe otter and view Glastonbury Tor. Additional 0.5 mile/ 800m from the main track will take you to the Avalon Hide (15 mins each way).

### Reedbed trail

A 0.3 mile/ 500m boardwalk (15 minutes).

Get up close and personal with the reedbed on our short wheelchair accessible boardwalk loop. Keep an eye out for our seasonal trails and see what is lurking in the reeds.

### Walton Heath trail

A 1.1 mile/ 1900m trail (30 minutes).

Meander along the grass track discovering quiet, tucked away places to sit and watch for wildlife. In summer look out for swarms of dragonflies roosting and flying amongst the reeds.

### Loxton's Marsh trail

A 0.8 mile/ 1300m trail (20 minutes).

Explore one of the wildest parts of the reserve listening for the secretive wildlife hidden in the reeds and scrub. Take care in winter as the tracks may be wet.
