

Candidates knocking at your door and you're not sure what to ask?

**Want to go to a hustings and feel prepared to
challenge the parties' visions for nature?**

**Here are some handy ideas for questions to
help you ask how your candidates intend to
help wildlife and the environment**

- How will you ensure that our vital laws protecting wildlife and habitats remain strong after Brexit?
- How will you ensure that the way we farm and use the land is sustainable and helps nature?
- Is your party committed to completing the designation of a comprehensive and well managed network of protected areas at sea?
- Has your party committed to achieving our climate ambitions? Will you invest in clean energy?
- How do you think the UK should continue to show global leadership on climate change and nature protection?
- Connecting with nature has numerous health and wellbeing benefits, how does your party intend to help people to re-engage with the natural environment?
- What are your personal commitments to help nature in our constituency?
